

Tutorial Burdastyle July 2017 model 126

I found the pattern in this magazine: [Burdastyle July 2017](#)

Because I didn't know how to do the pockets I took the pattern to my sewing course and made the Mickey Mouse dress (Size 7) you can see above.

For the next dress I chose a fabric with school supplies because little Miss M. will wear it on her very first day at school

Cut front (1), back (2), 2x both pieces for the pockets (3+4). Add $\frac{1}{2}$ " seam allowance to all pieces

I couldn't find the pattern for (5) and (6) in my magazine but they are needed. Take the front and back pattern for it and short it down to 2" under the armholes. Round it down a little

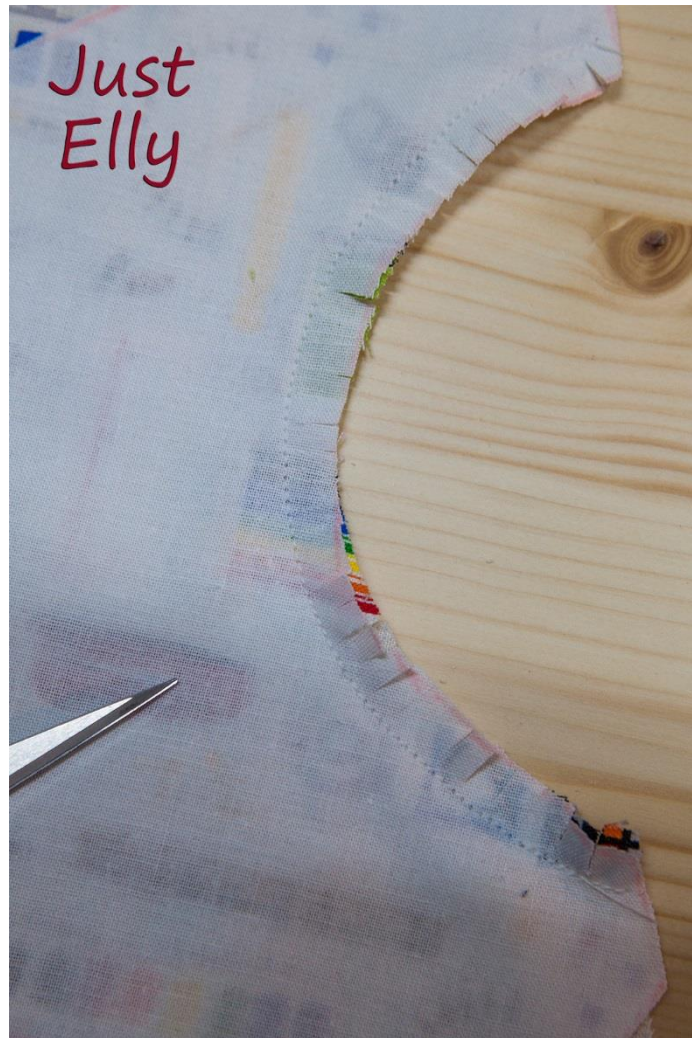

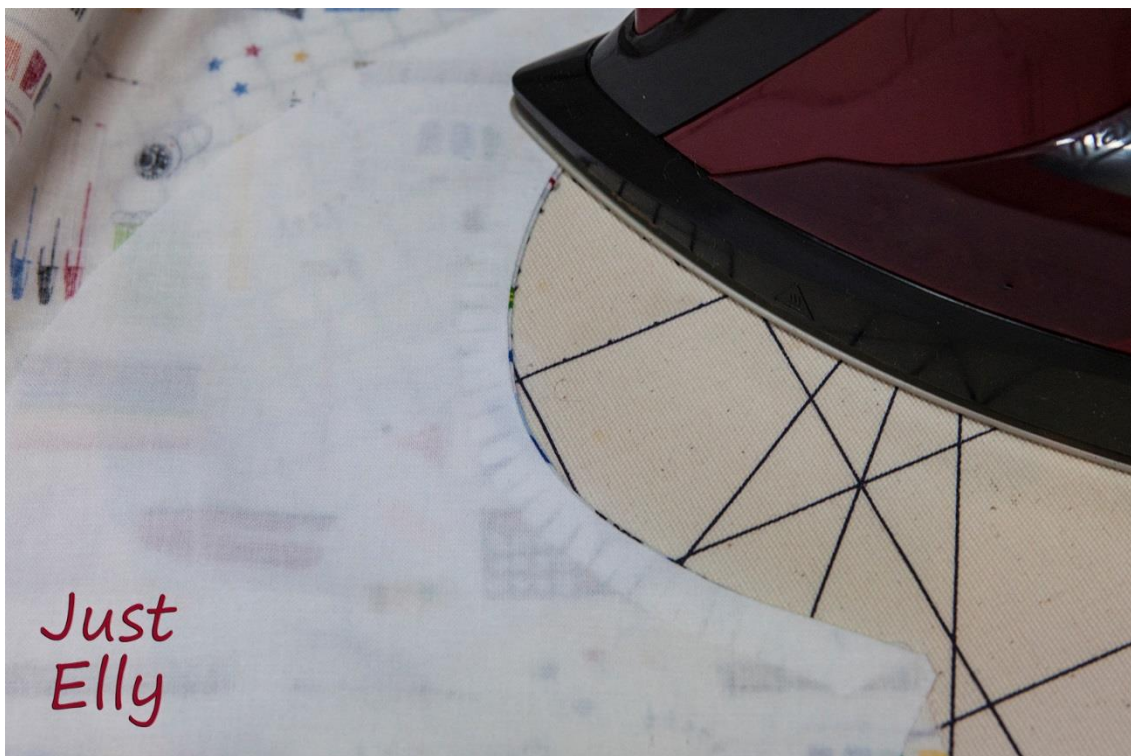

I started with the pockets first.

Use an 1/2" seam for the whole dress

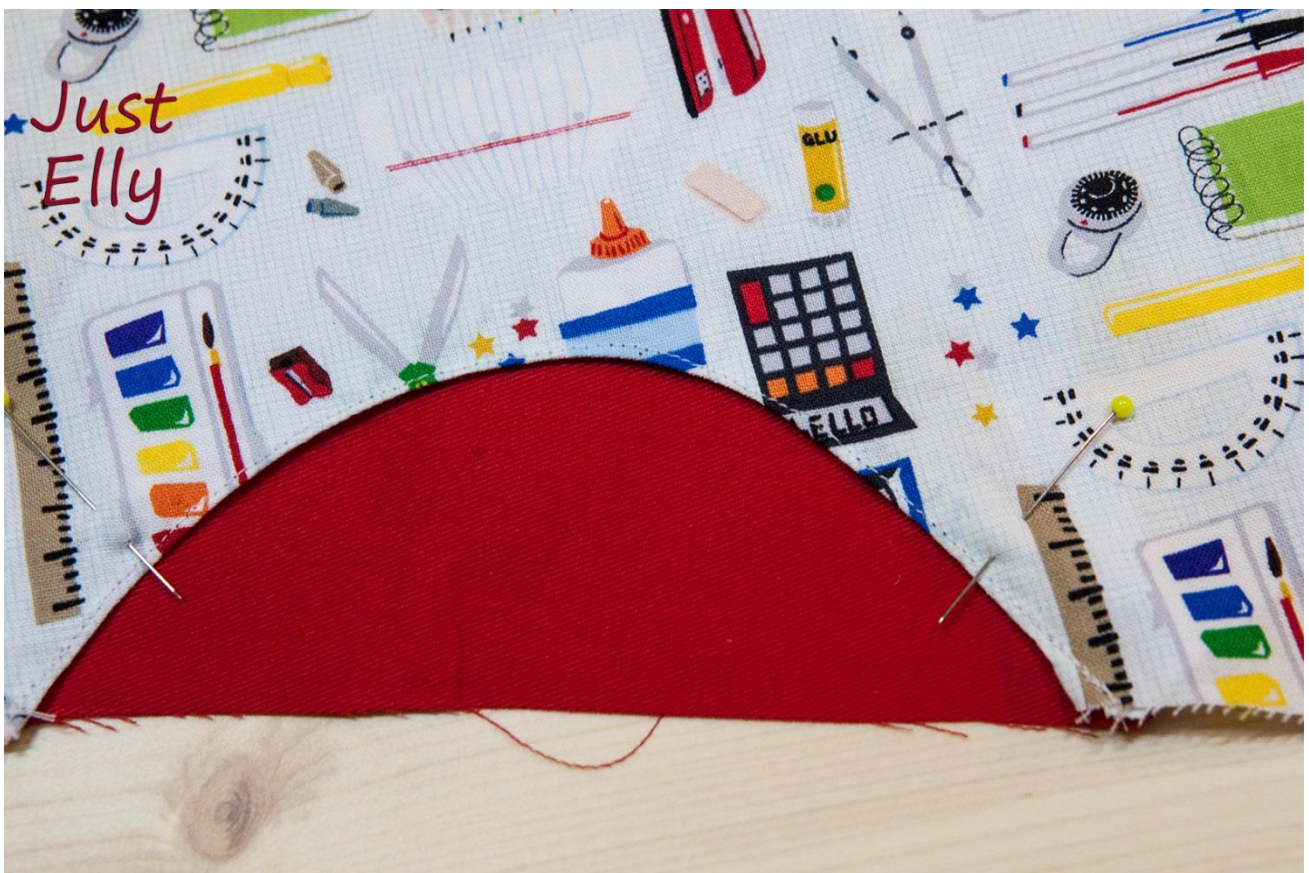

Make a lot of small cuts close to the seam. The smaller the cuts the better the rounded form will look when turned

Turn the pocket piece to the left side and iron it

Turn your piece and make a seam close to the edge

Put the red piece with needles under your fabric

Make a few stitches on both sides. Just to make sure it won't move when you'll sew the pocket

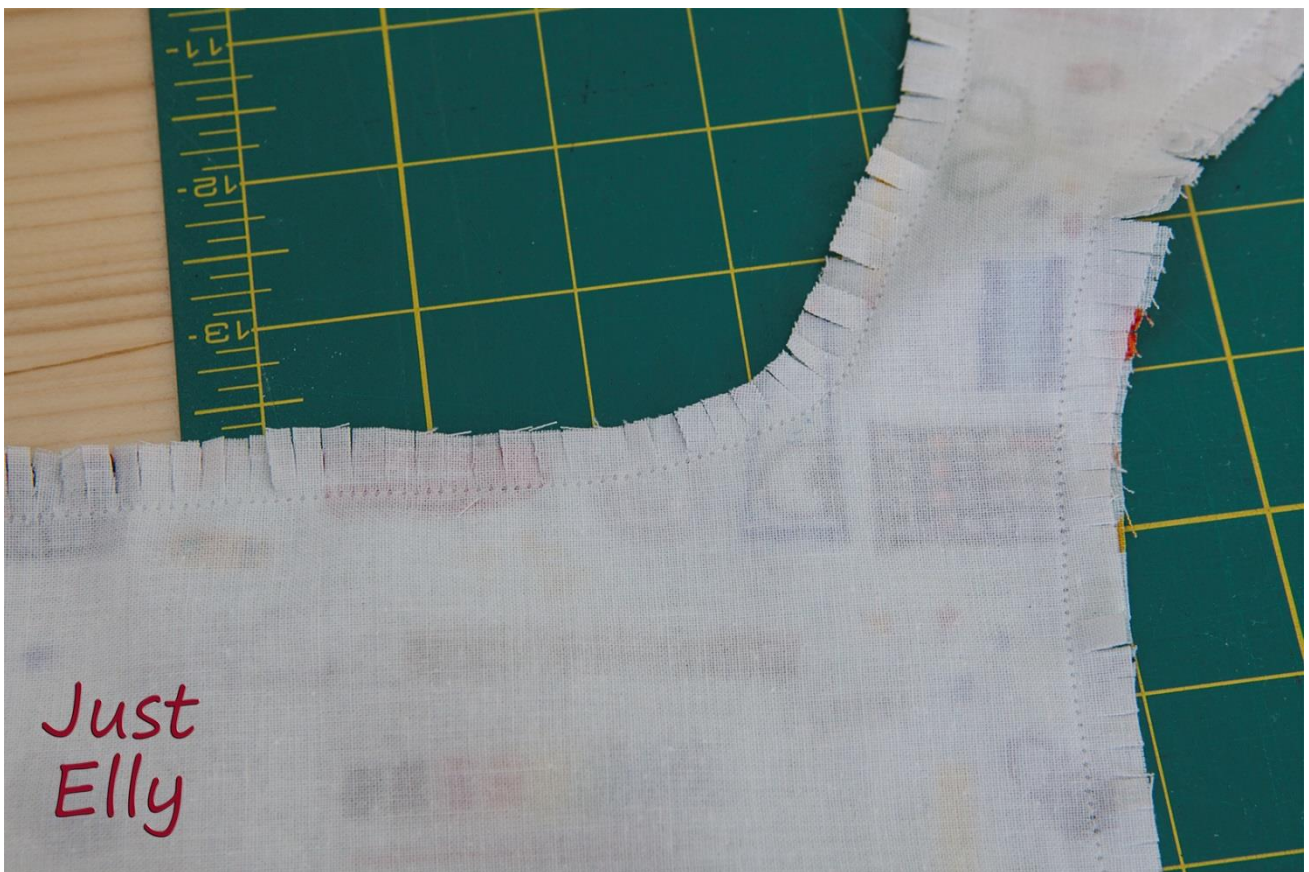

Sew as I showed with the arrows

*If you have an Overlock, use it. Or make zigzag stitches around the pocket.
Your pocket is done*

Now lay both fabrics on its right side and sew the inlet as marked with the arrows.

Make a lot of small cuts close to the seam. The smaller the cuts the better the rounded forms will look when turned

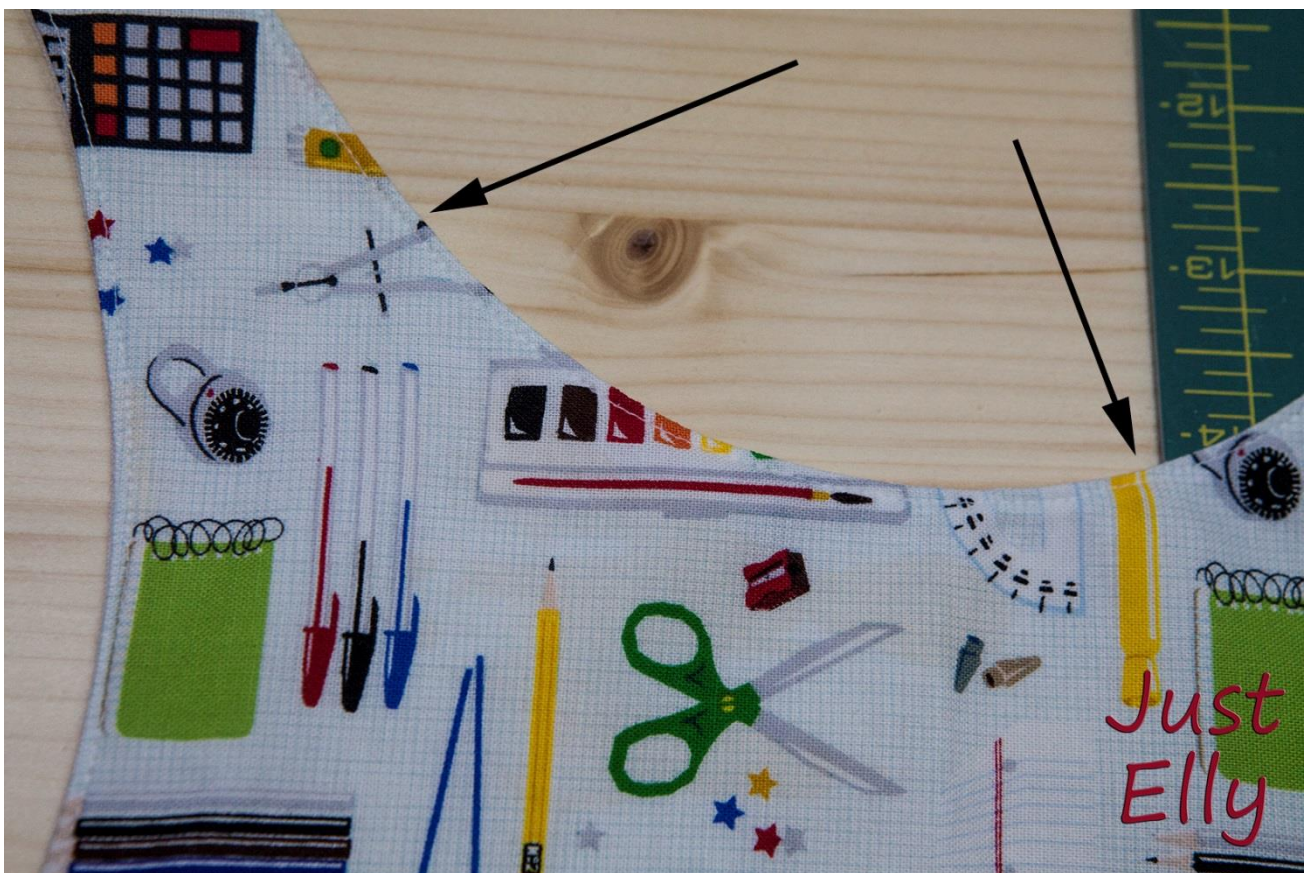

Shorten the cuts to the half

Turn your piece to the right side.

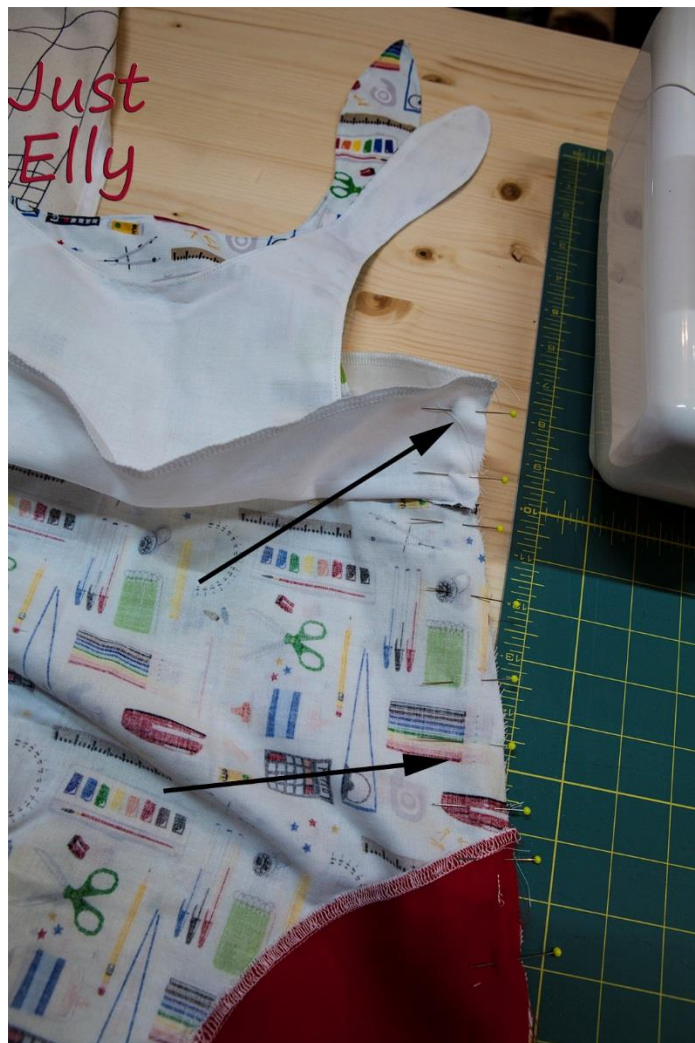

Iron it

Make a seam close to the edge

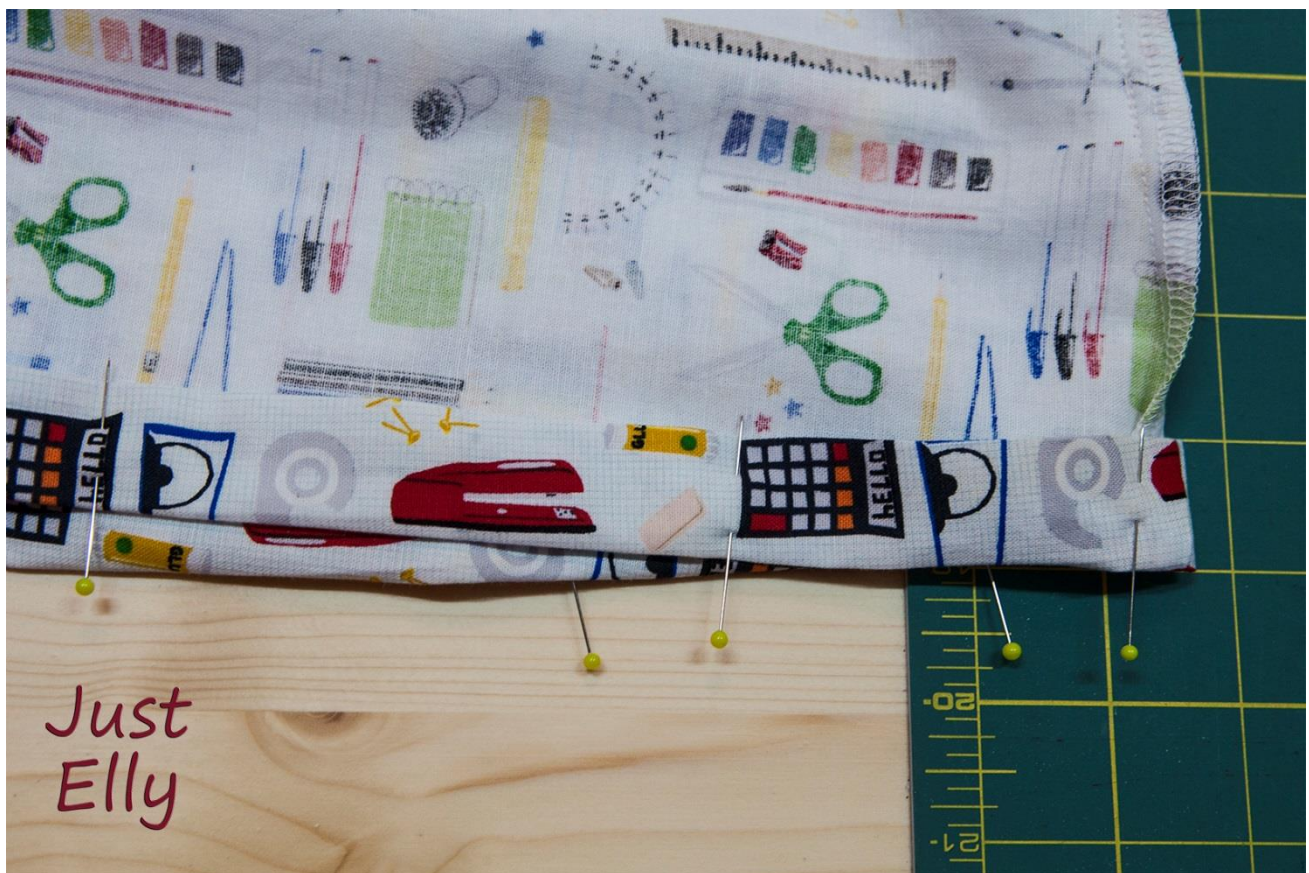

Overlock it or use a zigzag stitch

Sew the sides of the dress

Overlock the sides or use a zigzag stitch

Now sew the seam of the dress. With skirts and dresses I always make an 1" seam. This way Miss M. can wear this cute dress the next summer too

And now the dress ☺

I hope this tutorial is helpful

Happy sewing from Elly
